1. Introduction

- Trivia is a photography website that connects people with beautiful photos of their choice , feeling and emotions.
- Trivia photography website goal is to “connect everyone in the world through the thing they find interesting”
- Trivia is a “social media platform ” where people pin image (idea or products) on web based application.
- Trivia is a social media has, without a doubt, for sharing and categorizing images found online, changed the way consumers interact with brands and businesses.
- Users can browse or search for image.

2. Objectives

1. To increase the Brand Awareness.
2. To create user friendly interface for our website.
3. To develop a system to enable the user to share photos easily.
4. To Incorporate Trivia into a marketing campaign.
5. To develop a Simple and Reactive website.

3. Scope

1. User will be able to sign in and login.
2. User can search images from all over the world.
3. User will be able to download photos.
4. Pictures can be used to set as wallpaper and store the pictures.
5. User can upload their own collection of photos.
6. Trivia that allows you to read user's data.

4. Literature Survey

1. About a month ago while scrolling through Trivia, a pin caught my eye. To be honest I admit quite a few pins catch my eye. I spent hours scrolling and pinning, scrolling and pinning, day after day, month after month, thoroughly getting a kick out of my new-found passion.
2. Let's take a look at the who, what, when, why, and how of Pinterest to help you become more familiar with the latest social media trend. What is Pinterest? Pinterest, the latest social phenomena to hit the masses, is a sharing platform in which you "pin" pictures to your board.

5. Proposed System

1. Login system.

User will be able to login or create his own account.

2. Upload images.

User can upload images.

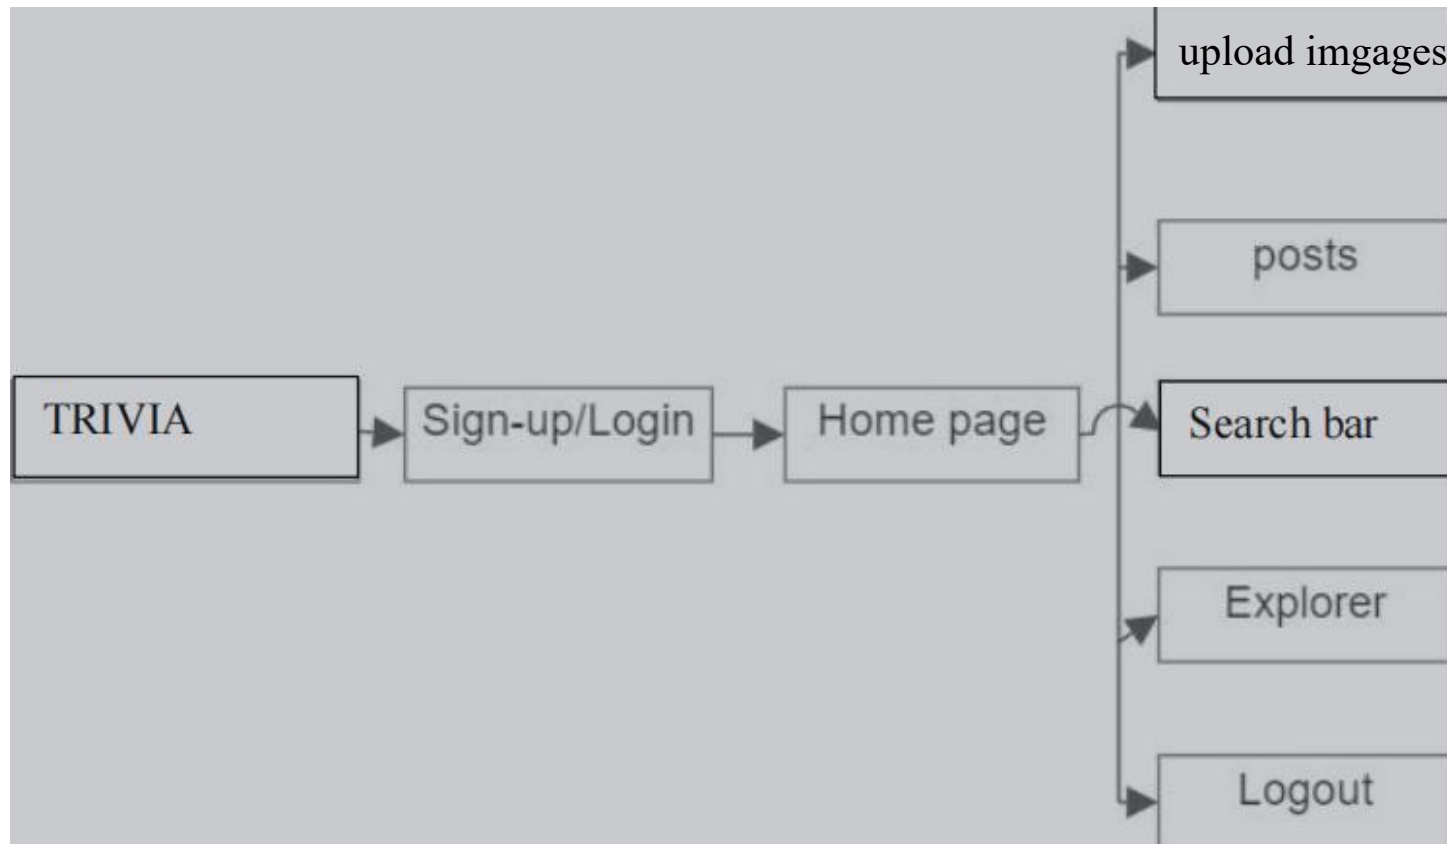

3. Search Images

User can search any image of his need.

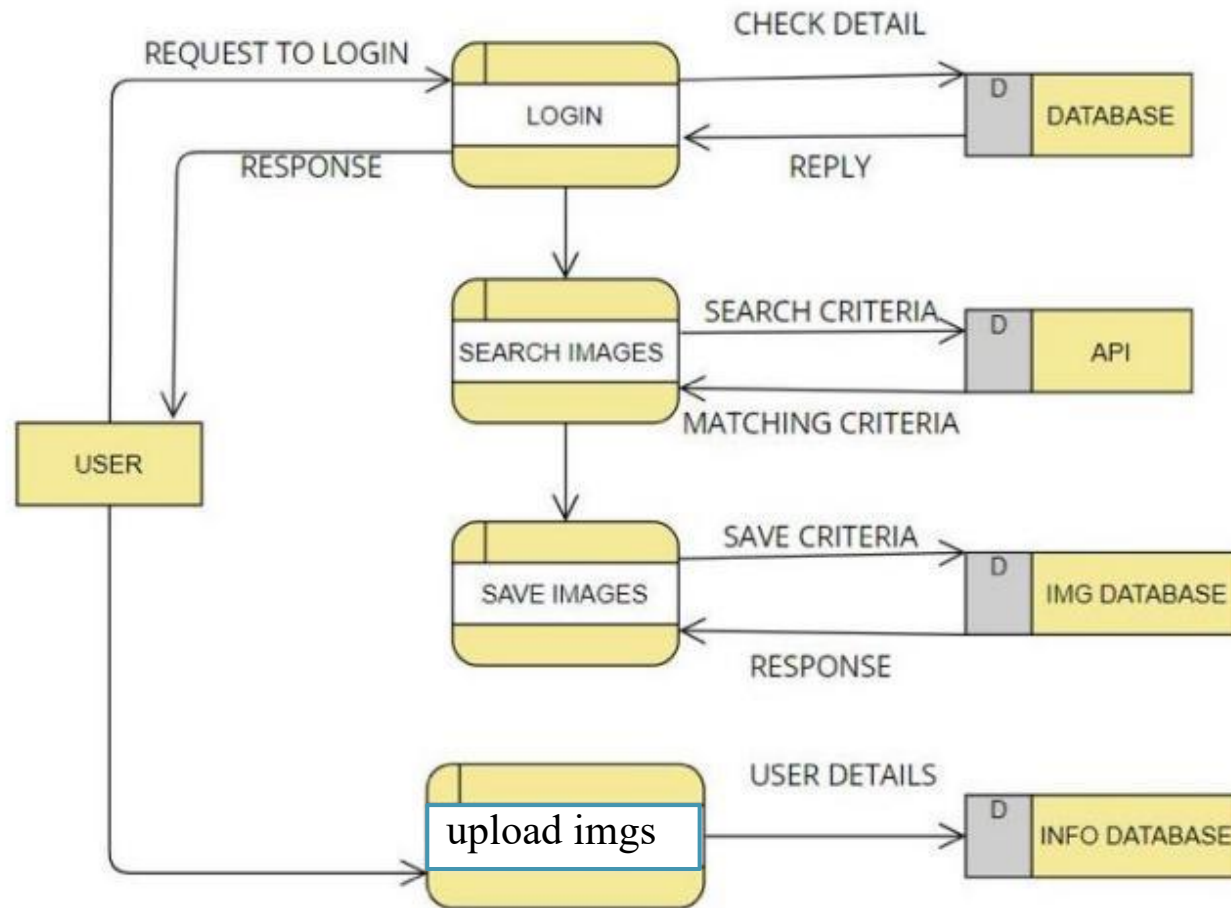

6. Outcome of Project

1. User can log in website with their own credentials
2. User can search there image as per there requirement.
3. User can upload images.
4. People can see the user profile.

7. Block Diagram

8.Data Flow Diagram

9. Technology Stack

1. FrontEnd - HTML & CSS
2. Database - FireBase
3. BackEnd - Node JS
4. Idle: vs code
5. Operating system : Window 11

Suggestions in Review-1

- ▶ To Add Filters.
- ▶ To Add More Functions.
- ▶ To Make Website more reactive.
- ▶ To Add user Portfolio.
- ▶ To enhance website by adding photos , fonts and colors.

Result and Discussion

- ▶ Trivia is ideal for telling stories through images, thanks to the famous infographics published by many of its users on their respective boards.
- ▶ Trivia is an image sharing and social media service designed to enable saving and discovery of information on the internet using images.

Conclusion and Future Scope

- ▶ Trivia is a photography website where user can create his/her account and upload photos.
- ▶ User can aslo download photos.
- ▶ In future, we could add the uploading and downloading videos feature.
- ▶ Communication with other users.
- ▶ Adding any photo to your wishlist.
- ▶ To Add notification feature.
